

COVID 19 - Reopening of Shooting Clubs

Instructions to shooting clubs

Please read the public health directives issued by your local authorities and adjust your operations accordingly.

These are suggestions.

Please proceed in accordance to the specific recommendations from your Municipal and Provincial Governments.

We are all reopening at a different pace.

We encourage club officials to consider the following measures to protect its members as well as their volunteers or employees:

1. **Hand sanitizer** - Installer of contactless dispensers at required locations in your club. The cleaning of the main networks is compulsory when your members or volunteers arrive at your club.
2. **Reception counter** - Plexiglas installer above the counter to protect receptionists.
3. **Attendance register** - Please review the procedures relating to the attendance register to minimize pencil sharing and binder handling.
4. **Equipment loan** - Please review the equipment loan procedures. We recommend that you stop lending personal protective equipment such as ear muffs or protective glasses.
5. **Cleaning of shooting stands between each shooter** - The cleaning of shooting ranges (tables, switches, electronic target console etc.) should be carried out between each change of shooter. We recommend that you provide cleaning wipes to your members and give instructions to officials that each member is responsible to clean their lane prior to leaving the range or allowing another shooter to use it.
6. **Shooting range limit** - In order to respect the physical distance instructions, please measure the distance between each shooting range and close certain shooting ranges (minimum of 2 meters between each shooter).
7. **Shooting range reservation** – We recommend setting up a reservation system to ensure that you can maintain control over the number of people on the premises at any given time.
8. **Duration of use of shooting ranges** - Depending on the traffic through your range, a time limit may need to be imposed to make sure proper physical distancing is maintained.
9. **Guests** – At this time, we would recommend that members only be allowed on the premises. This measure should be mandatory in order to comply with the physical distancing instructions.
10. **Officials and volunteers** – All officials and volunteers are strongly encouraged to wear a mask when associating with members.
11. **No gathering** – No large groupings should be allowed in or immediately outside of the premises.

12. **Housekeeping in washrooms and common areas** - Please review cleaning procedures and use appropriate products.

Instructions to shooters

1. **Frequent hand washing.**
2. **Avoid touching your face.**
3. **Respect physical distancing and remain 2 metres from others at all times.**
4. **If you are experiencing any symptoms, stay home.**

HOW TO WEAR A NON-MEDICAL FABRIC MASK SAFELY

[who.int/epi-win](https://www.who.int/epi-win)

Do's →

Don'ts →

A fabric mask can protect others around you. To protect yourself and prevent the spread of COVID-19, remember to keep at least 1 metre distance from others, clean your hands frequently and thoroughly, and avoid touching your face and mask.

5. **Wearing a mask** - in order to protect officials and reception staff, we recommend that your members be encouraged to wear a mask when they enter your club. The latter could be removed, if the member so wishes, when the member is shooting.

are aware that these measures disrupt personal habits. We thank you in advance for your cooperation in complying with these guidelines.

more information on use of masks, please review this item posted the WHO on June 5, 2020
